ONYX | SANDSTONE | LANDSCAPE STONE

WELCOME TO SKALA SOLUTIONS™ STONE COLLECTION

At SKALA Solutions, we bring you nature's most breathtaking materials: marble with dramatic veins that whisper ancient stories, granite shaped by time, and quartzite in vivid, otherworldly hues. Each selection is handpicked to inspire and elevate your environment.

For over a decade, we've traveled the globe to build this curated collection. We select every stone not just for beauty, but for how it will enrich spaces for generations to come.

WHAT SETS US APART?

We imagine more than just the material. We envision how morning light plays on your marble countertop, how sandstone softens a step, and how basalt's deep tones bring gravity to a space. We are your creative collaborators, not just sourcing stone but shaping experiences.

Inside, you'll find a remarkable spectrum of natural stones: classic marble, enduring granite, rich limestone, uniquely patterned travertine, elegant basalt, radiant quartzite, luminous onyx, grounded sandstone, and bespoke landscape stones to complete any vision.

Need something unique? We'll find it. Want to see how a particular stone will look in your space? We'll help you visualize it. Have a bold concept? We're here to bring it to life.

This catalog is your invitation to reimagine what's possible. Let's create lasting impressions, one extraordinary stone at a time.

P.S. DON'T SEE EXACTLY WHAT YOU NEED? JUST ASK. OUR NETWORK OF QUARRIES AND ARTISANS CAN SOURCE OR CRAFT NEARLY ANYTHING YOU CAN ENVISION.

SKALA Team
We share your passion for perfect stone

TABLE OF CONTENT

Every Page Tells a Story in Stone

1

NATURAL SELECTION

Our curated natural stone collection combines beauty, durability, and uniqueness, offering carefully selected materials that elevate any design with authentic, timeless appeal.

2

MARBLE

Elegant and timeless, marble features smooth textures and distinctive veining, perfect for refined and sophisticated spaces.

3

GRANITE

Durable and versatile, granite offers a wide range of colors and patterns, making it ideal for high-traffic areas and both indoor and outdoor applications.

4

LIMESTONE

Soft in tone and texture, limestone brings a natural, earthy charm, ideal for creating warm and timeless architectural spaces.

5

TRAVERTINE

Known for its unique surface and warm tones, travertine adds rustic elegance and natural character to both interior and exterior spaces.

6

BASALT

Strong and contemporary, basalt features a fine-grained texture and dark tones, ideal for modern designs and high-performance applications.

7

QUARTZITE

Hard and resilient, quartzite combines the elegance of marble with the strength of granite, perfect for surfaces that demand both beauty and durability.

8

ONYX

Luxurious and translucent, onyx features dramatic patterns and rich colors, ideal for statement pieces and backlit applications.

9

SANDSTONE

Warm and textured, sandstone offers natural earth tones and a rustic appeal, perfect for creating inviting, organic spaces.

10

LANDSCAPE STONE

Durable and natural, landscape stone enhances outdoor spaces with texture and character, ideal for pathways, gardens, and retaining walls.

11

KEY PROJECTS

Showcasing our expertise and craftsmanship, these landmark projects highlight our commitment to quality and innovation in delivering exceptional natural stone solutions.

12

FACTORIES & STORES NETWORK

Our state of the art factories and strategically located stores ensure efficient production and convenient access to premium natural stone products.

NATURAL SELECTION

Unrepeatable by Design

1

Every piece of natural stone is a one-of-a-kind creation formed deep within the Earth over the course of millions of years. These stones are shaped by powerful geological forces including extreme heat, intense pressure, and the gradual layering of minerals. The resulting patterns, colors, and textures are not products of human design but are born entirely from nature's patient and unhurried processes.

No two stones are ever identical. Each slab carries its own fingerprint shaped by the unique conditions of its environment. The flow of minerals, the presence of fossils, and the path of ancient fractures all contribute to the individuality seen in every surface. This natural variation is what gives stone its character and makes each piece a living reflection of the Earth's story.

From delicate veining to dramatic shifts in tone and texture, every surface reveals the geological history of its origin. These natural variations give each stone a timeless and unmistakable authenticity that simply cannot be replicated by engineered or synthetic materials.

Each stone is chosen for its character, offering true natural authenticity.

MARBLE

The Epitome of Luxury

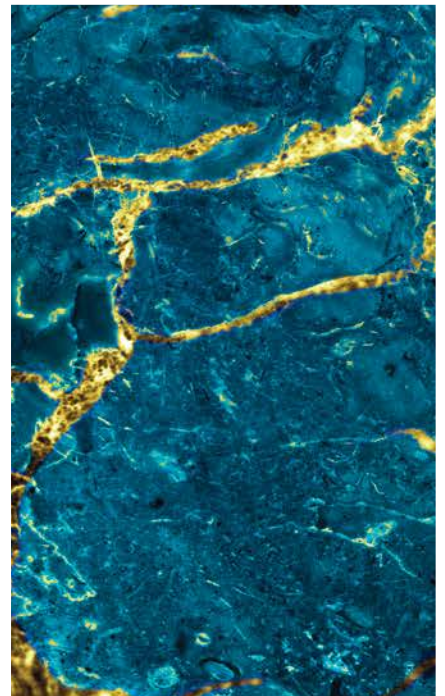

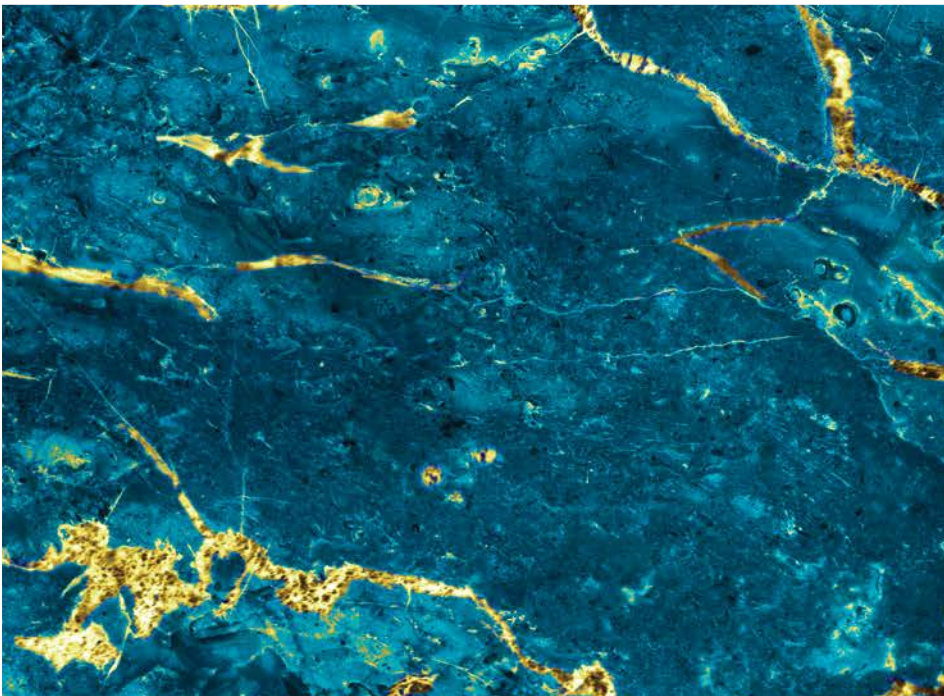

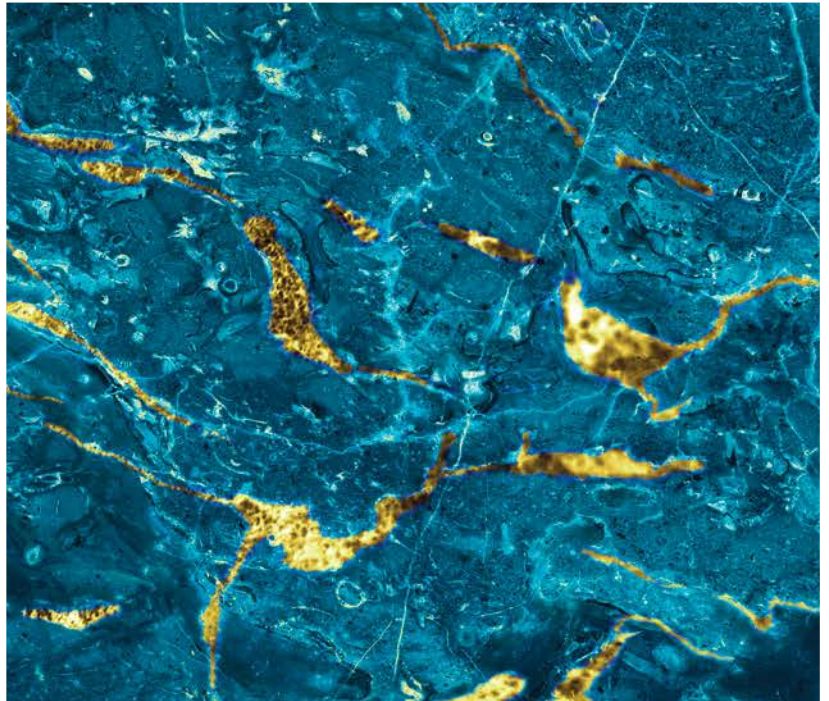

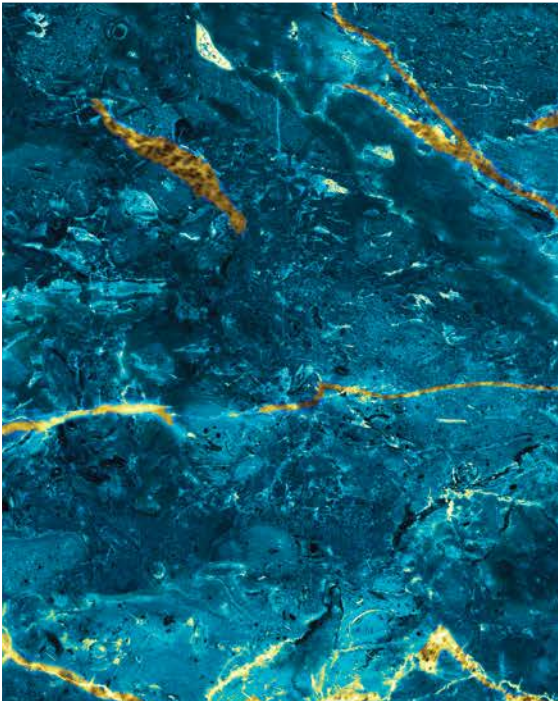

2

Marble embodies timeless elegance, a natural masterpiece of artistry and grandeur. Formed over centuries within the earth, this metamorphic stone captivates with its delicate yet striking beauty, soft veins weaving through shades of white, gray, cream, and occasionally bold, dramatic tones. From the serene purity of Carrara to the deep allure of Nero Marquina, marble brings effortless sophistication to any space, its luminous surface reflecting light like captured whispers of history.

Its smooth, cool touch and gentle translucence create an atmosphere of understated luxury, making it a cherished choice for stately interiors, sculptural accents, and enduring architectural details. Softer than granite yet rich in character, marble develops a unique patina over time, each etch and glow telling a story of gatherings, quiet moments, and the passage of time. There's an intimacy to its aging process unlike cold, unchanging surfaces, marble breathes with life, softening under touch and gaining depth with every year.

Whether adorning classic columns, or opulent baths, marble elevates the everyday into the extraordinary.

More than just a material, it is a celebration of nature's artistry, perfected by human hands.

CARRARA WHITE

Type of Material	Color
Marble	White
Origin	Market
Italy	Global
(Carrara, Tuscany)	

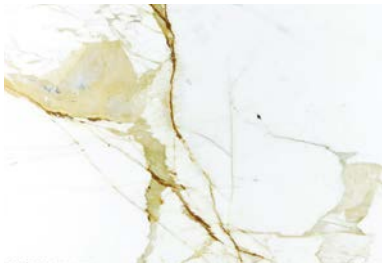

Uses: Countertops, Vanities, Floors, Walls.
Note: Timeless luxury stone for upscale interiors.

THASSOS BIANCO

Type of Material	Color
Marble	Pure White
Origin	Market

(Cordoba, Andalusia)

Uses: Countertops, vanities, floors, walls, decorative accents.
Note: Golden-yellow marble with dramatic veining; perfect for luxurious interiors.

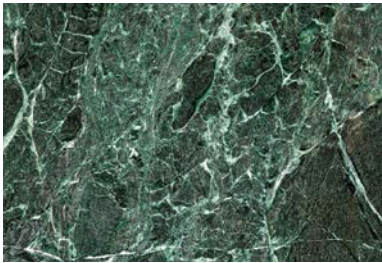

ARMANI GREY

Type of Material Color
Marble **Grey**

Origin Market
Spain, Turkiye & Spain **Global**

Uses: Countertops, vanities, floors, walls, feature walls.
Note: Refined grey marble with soft white veining; ideal for modern luxury—seal to avoid stains.

VERDE ALPI

Type of Material Color
Marble **Green**

Origin Market
Italy **Global**
(Alps Region)

Uses: Countertops, vanities, floors, walls, statement pieces.
Note: Unique green marble with white veining; perfect for bold luxury—seal regularly for upkeep.

NAJРАН BROWN

Type of Material Color
Marble **Brown**

Origin Market
Saudi Arabia **GCC**
(Najran Region)

Uses: Countertops, vanities, floors, walls, architectural features.
Note: Warm chocolate marble with golden veining; perfect for Middle Eastern and modern luxury—sealing needed for upkeep.

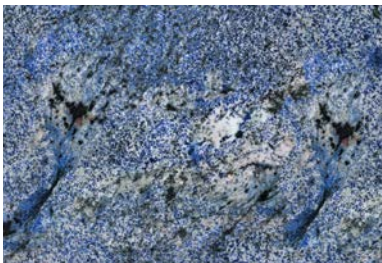

ARABIAN BEIGE

Type of Material Color
Marble **Light Beige**

Origin Market
Saudi Arabia **GCC**

Uses: Countertops, vanities, floors, walls, feature walls.
Note: Elegant light beige marble with soft veining; perfect for warm, refined interiors—sealing recommended for protection.

BLUE BAHIA

Type of Material Color
Marble **Blue**

Origin Market
Brazil **Global**
(Bahia Region)

Uses: Luxury countertops, feature walls, vanities, accents, premium flooring
Note: Exceptionally rare vivid blue marble; striking appearance—requires expert sealing and meticulous care

GRANITE

Unyielding Strength

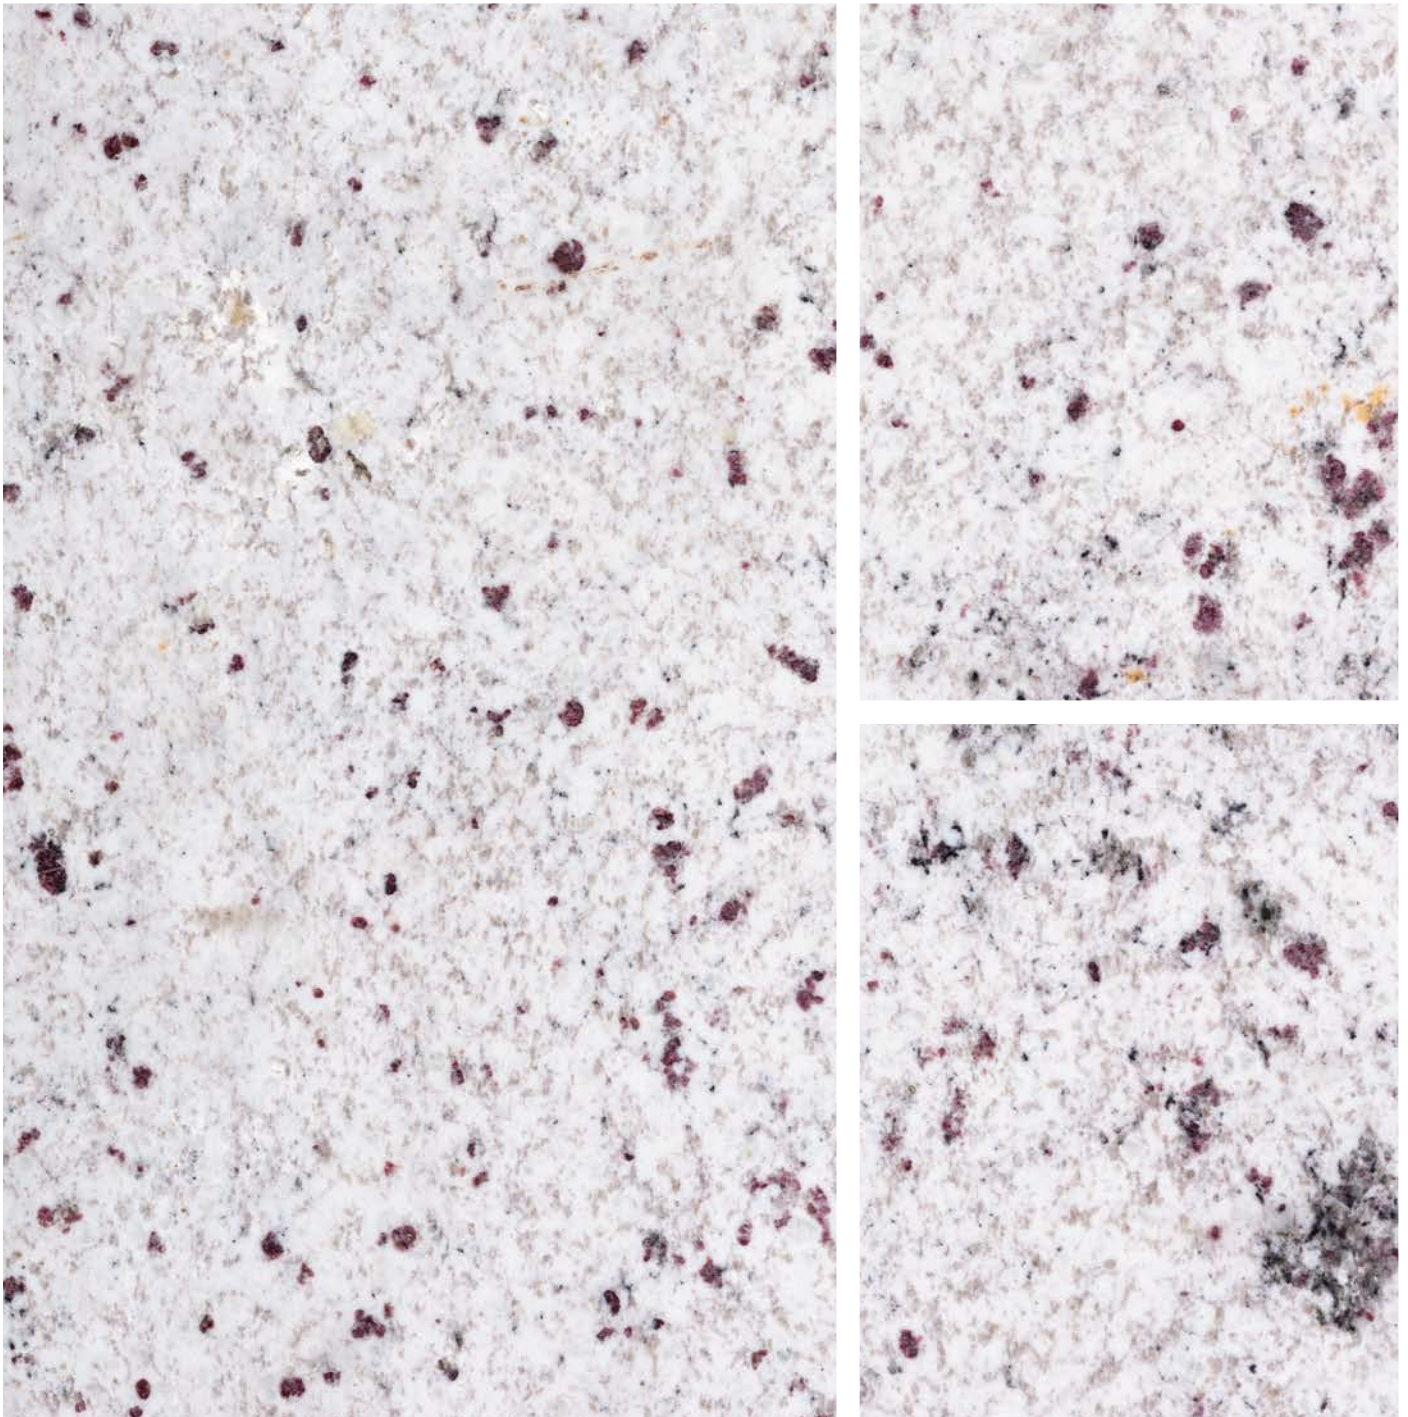

3

Granite is nature's unyielding masterpiece, a stone of timeless beauty and raw, captivating power. Each slab is a geological marvel, telling its own ancient story through bold veins, crystalline sparkle, and rich, dramatic hues that bring unmatched character to any space. From the profound depths of Absolute Black to the celestial swirls of Blue Bahia, granite's spectrum is as diverse as the earth itself, offering the perfect fusion of artistry and intention.

Forged under crushing pressure and volcanic heat over millions of years, granite is the embodiment of resilience. Its dense, crystalline structure resists scratches, heat, and daily wear with quiet strength, standing unwavering against time. Unlike softer stones, granite doesn't just endure, it thrives, its surface growing more distinguished with use, a living testament to both nature's force and human craftsmanship.

Whether anchoring a modern kitchen with its commanding presence, gracing a grand entryway underfoot, or cladding a façade in stoic elegance, granite transforms the functional into the extraordinary. It bridges the primal and the refined, equally at home in a rugged outdoor terrace as it is in a polished luxury penthouse.

More than just a stone, granite is a statement, an unbreakable alliance of nature's might.

ABSOLUTE BLACK

Type of Material	Color
Granite	Black

Origin	Market
India (South India)	Global

Uses: Countertops, floors, walls, vanities, outdoor features.
Note: Premium Indian black granite; sleek, uniform look—naturally durable and stain-resistant.

BIANCO ANTICO

Type of Material	Color
Granite	White

Origin	Market
Brazil (Espírito Santo)	Global

Uses: Countertops, vanities, floors, walls, backsplashes.
Note: White granite with gray and burgundy veining; suited for modern spaces—durable and low-maintenance.

GIALLO ORNAMENTAL

Type of Material	Color
Granite	Gold/Beige

Origin	Market
Brazil (Minas Gerais)	Global

Uses: Countertops, floors, walls, vanities, outdoor features.
Note: Golden granite with intricate veining; perfect for Mediterranean styles. durable and easy to maintain.

SANTA CECILIA

Type of Material	Color
Granite	Gold/Brown

Origin	Market
Brazil & India	Global

Uses: Countertops, floors, vanities, backsplashes, outdoor kitchens.
Note: Classic gold granite with pebble patterning; ideal for warm traditional spaces—naturally stain-resistant.

CREMA BORDEAUX

Type of Material	Color
Granite	Warm Cream

Origin	Market
Brazil & India	Global

Uses: Countertops, floors, walls, vanities, luxury interiors.
Note: Cream granite with bold Bordeaux veining; perfect for homes and commercial spaces. Extremely Durable.

BLUE PEARL

Type of Material	Color
Granite	Blue

Origin	Market
Norway (Larvik)	Global

Uses: Countertops, floors, walls, vanities, outdoor features.
Note: Blue-gray granite with metallic shimmer; perfect for sleek, upscale designs. Durable and weather-resistant.

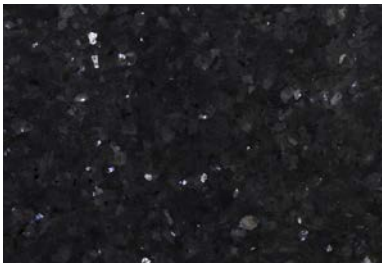

RED DRAGON

Type of Material	Color
Granite	Red

Origin	Market
China (Fujian Province)	Global

Uses: Countertops, feature walls, floors, fireplaces, luxury interiors.
Note: Bold red granite with striking black and gold veining; ideal for standout designs—durable and heat-resistant.

EMERALD PEARL

Type of Material	Color
Granite	Green

Origin	Market
Norway (Larvik)	Global

Uses: Countertops, floors, walls, vanities, outdoor features.
Note: Distinctive green granite with pearly shimmer; perfect for luxurious and resilient spaces—weather-resistant and durable.

NAJRAN GOLD

Type of Material	Color
Granite	Gold/Beige

Origin	Market
Saudi Arabia (Najran Region)	Global

Uses: Luxury countertops, mosque floors, royal palaces, hotel lobbies, monumental cladding.
Note: Premium chocolate granite with golden veins; symbolizes Arabian opulence—low-maintenance.

LIMESTONE

Earthy Elegance

4

Limestone is nature's quiet storyteller, a stone of understated strength and organic grace, revered for its warm, sun-kissed hues and soothing, earthy presence. Formed over millennia from the compressed remains of ancient seashells and sediment, each slab is a living archive of time, its subtle fossils and soft textures whispering tales of a world long past.

Its palette is one of tranquil harmony, creamy ivories, weathered beiges, misty greys, and soft caramel tones, each variation kissed by nature's hand. Whether in the rustic embrace of a Provençal farmhouse or the sleek lines of a modern façade, limestone brings a soulful authenticity to every space.

Though softer than granite or marble, limestone's humility is its strength. Its porous nature allows it to breathe, creating natural insulation that keeps interiors cool in summer and warm in winter. Outdoors, it ages with dignity, its surface softening into a silvery patina that echoes the timeless beauty of European cathedrals and Mediterranean villas.

Limestone is more than a building material, it's a bridge between earth and artistry.

FRENCH LIMESTONE
(Pierre de Bourgogne)

Type of Material	Color
Limestone	Beige

Origin	Market
France (Burgundy Region)	Global

Uses: Flooring, Walls, Countertops, Fireplace Surrounds, Outdoor Paving.
Note: Premium natural limestone with timeless elegance, ideal for classic and contemporary European-style interiors. Requires sealing for protection.

GOLD LIMESTONE

Type of Material	Color
Limestone	Golden Beige

Origin	Market
Middle East	Global

Uses: Floors, walls, countertops, vanities, outdoor paving.
Note: Golden limestone with fossil textures; perfect for restoration and Mediterranean aesthetics seal periodically.

MOLEANOS LIMESTONE

Type of Material	Color
Limestone	Beige

Origin	Market
Portugal (Moleanos region)	Global

Uses: Floors, walls, countertops, vanities, outdoor paving
Note: Timeless Portuguese limestone with soft beige hues; suited for traditional and modern settings—seal in high-traffic zones for durability

KOTA BROWN

Type of Material	Color
Limestone	Brown

Origin	Market
India (Kota District, Rajasthan)	Global

Uses: Floors, walls, outdoor paving, pool coping, steps & treads.
Note: Robust chocolate-brown limestone with slip-resistant texture; ideal for wet, high-traffic zones—minimal upkeep needed.

KHATMIA LIMESTONE

Type of Material	Color
Limestone	Beige

Origin	Market
Oman (Dhofar Region)	GCC

Uses: Floors, walls, outdoor paving, mosque interiors, traditional architecture
Note: Premium Middle Eastern limestone with shell fossils; perfect for heritage and luxury builds—naturally resistant to heat.

SESAME WHITE
(G603_Padang Light)

Type of Material	Color
Limestone	Light Beige

Origin	Market
China (Fujian Province)	Global

Uses: Floors, walls, outdoor paving, facades, vanities.
Note: Economical white-gray limestone with understated texture; ideal for expansive residential and commercial builds—naturally resists weathering.

TRAVERTINE

Nature's Canvas

5

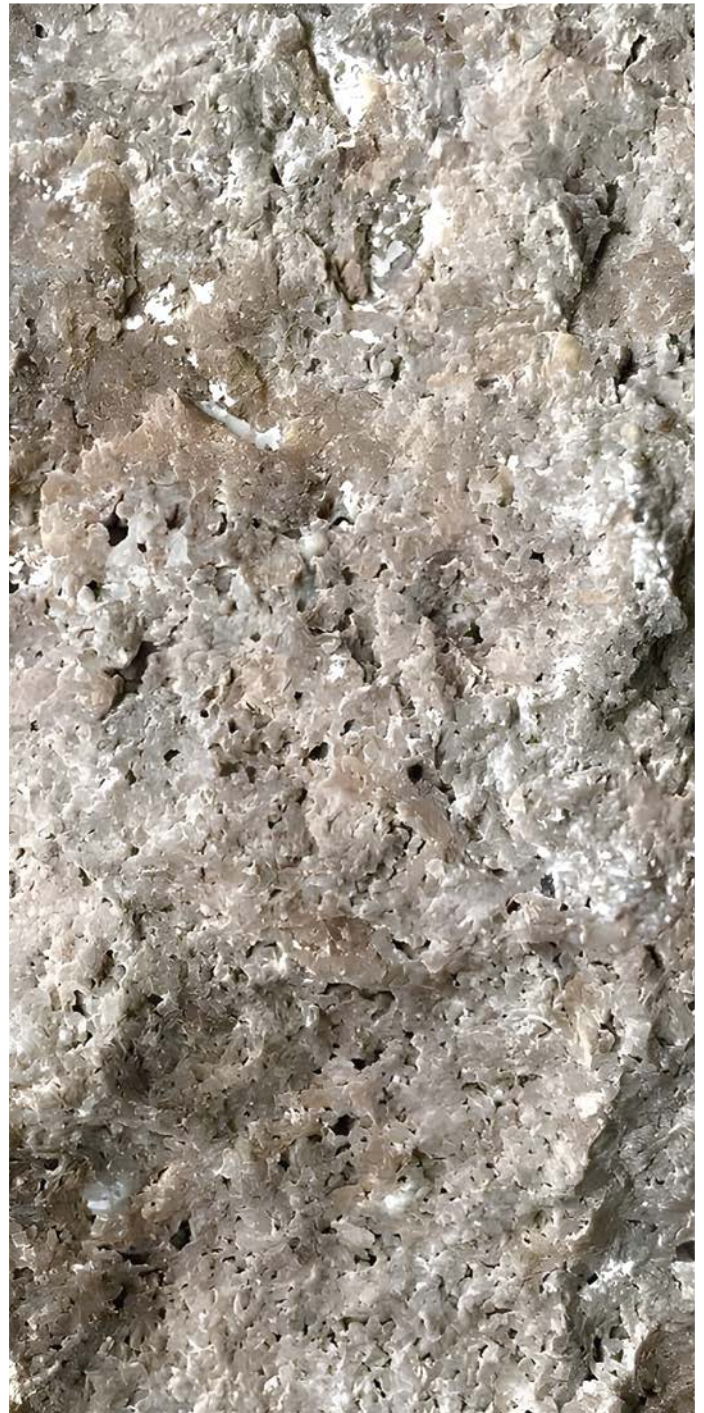

Travertine is a stone of timeless distinction, born in mineral-rich springs and layered by nature's patient hand. Its surface, marked by gentle movement and soft voids, tells the story of water, time, and transformation, offering a tactile connection to the earth's ancient rhythms.

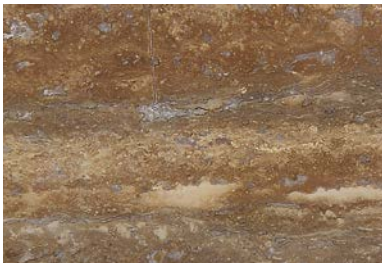

Available in a soothing spectrum of ivory, walnut, gold, and silver tones, travertine radiates warmth and authenticity. Its signature porous texture, whether left naturally open or filled and honed, adds depth and character, blending effortlessly into both classic and contemporary settings.

Prized since the days of Roman architecture, this noble stone variant has everything from grand amphitheaters to serene courtyards. Its versatility is unmatched, equally at home in sunlit patios, luxurious or stately interior floors.

Soft underfoot and enduring in spirit, it's a legacy of elegance shaped by the quiet force of water and time.

A true testament to natural beauty in its most organic form.

NOCE TRAVERTINE

Type of Material Color
Travertine **Walnut Brown**

Origin Market
Italy **Global**
(Tivoli Region)

Uses: Floors, walls, vanities, countertops, outdoor paving.
Note: Premium Italian travertine with warm walnut tones; ideal for rustic and Mediterranean charm. Seal in high-traffic areas for lasting beauty.

TURKISH BROWN TRAVERTINE
(Kahverengi Traverten or Turkish Noce)

Type of Material Color
Travertine **Brown**

Origin Market
Turkiye **Global**
(Denizli Basin)

Uses: Floors, walls, vanities, pool decks, facades.
Note: Dense warm brown travertine; perfect for Mediterranean and Ottoman aesthetics—naturally resistant to heat and frost.

CLASSIC IVORY

Type of Material Color
Travertine **Ivory & Beige**

Origin Market
Iran & Turkiye **Global**

Uses: Floors, walls, vanities, hotel lobbies, stair treads.
Note: Premium travertine in warm ivory; versatile for classic and modern styles—naturally durable indoors and out.

SILVER TRAVERTINE
(Silver Grey Travertine)

Type of Material Color
Travertine **Silver Grey**

Origin Market
Turkiye **Global**
(Denizli Basin)

Uses: Floors, walls, vanities, commercial interiors, pool coping.
Note: Premium cool-toned travertine with metallic finish; ideal for sleek, minimalist aesthetics. Naturally slip-resistant and stylish.

RED TRAVERTINE
(Persian Red Travertin)

Type of Material Color
Travertine **Red**

Origin Market
Iran **Global**
(Bahia State)

Uses: Feature walls, floors, vanities, monumental cladding, fireplaces.
Note: Bold oxblood-red travertine with vivid patterns; ideal for dramatic architectural impact—seal to preserve rich color and detail.

KHATMIA TRAVERTINE
(Al Khatmia Travertine)

Type of Material Color
Travertine **Beige**

Origin Market
Oman **Global**
(Dhofar Mountains)

Uses: Luxury flooring, mosque interiors, resort cladding, water features, royal palaces.
Note: Ultra-premium Omani travertine with dramatic fossil motifs; perfect for upscale Islamic and modern designs.

ROMAN TRAVERTINE
(Travertino Romano)

Type of Material Color
Travertine **Beige**

Origin Market
Italy **Global**
(Tivoli, Guidonia & Rome)

Uses: Floors, walls, facades, columns, historical restoration.
Note: Iconic Roman travertine; timeless for classical and neoclassical architecture. Ages gracefully with a noble patina over time.

BASALT

Volcanic Grandeur

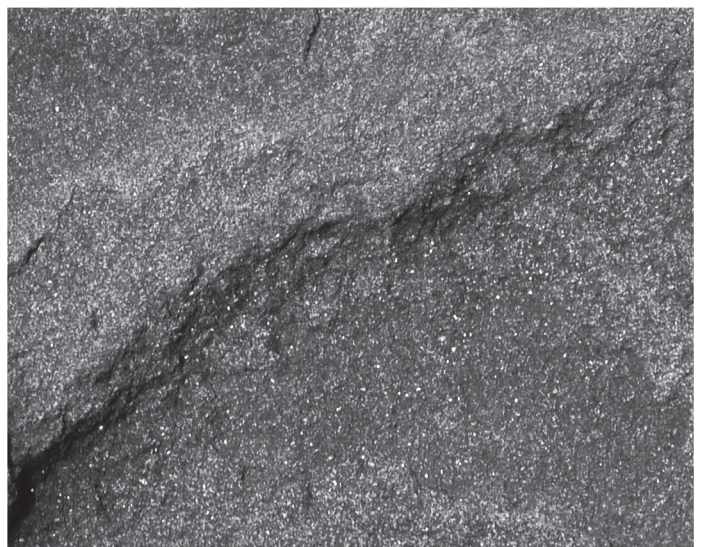

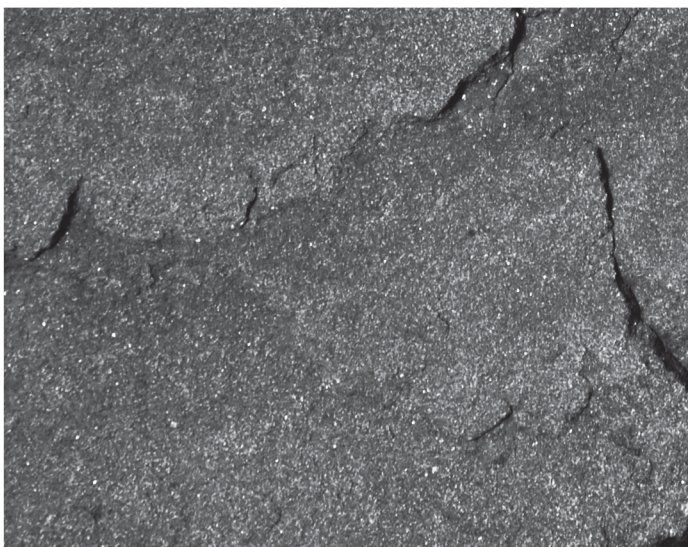

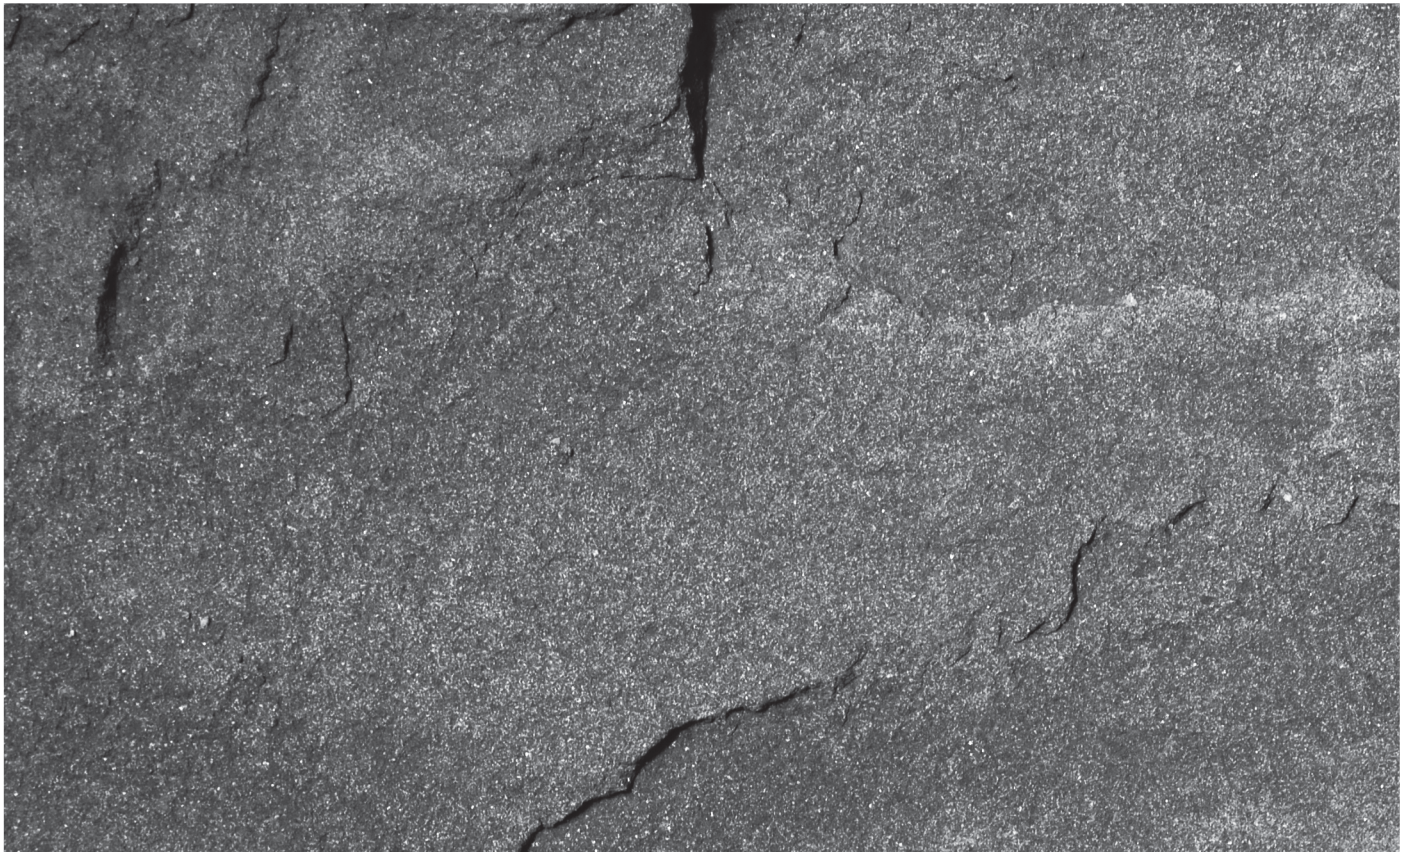

6

Basalt is the essence of elemental strength, a volcanic stone forged in fire and cooled by time. With its rich, dark tones and fine-grained texture, basalt speaks in a quiet, confident voice, embodying modern minimalism and primal power in equal measure.

Its natural palette, ranging from charcoal greys to deep blacks, offers a striking foundation for architectural expression. Free of ornamentation yet full of depth, basalt's smooth surface or flamed finish brings a sense of refined strength to any design. It is the stone of clean lines, shadowed contrasts, and bold silhouettes.

Highly dense and resilient, basalt excels in high-traffic environments, outdoor paving, cladding, and landscaping. Resistant to weather, wear, and time, it maintains its integrity with quiet determination, unmoved by the elements that once shaped it.

A product of Earth's most dramatic forces, basalt is where raw nature meets modern form, unpretentious, enduring, and powerfully grounded.

BASALTINA BASALT

(Local Name: Basaltina Romano)

Type of Material Color
Basalt **Light Grey**

Origin Market
Italy **Niche Global**
(Lazio Region)

Uses: Countertops, floors, walls, architectural accents, urban landscaping.
Note: Premium Italian basalt in light gray-blue hues; perfect for modern and brutalist aesthetics—resilient to thermal shock and built for endurance.

INDIAN COLUMNAR BASALT

(Local Name: Stambha Basalt)

Type of Material Color
Basalt **Grey Black**

Origin Market
India **Niche Global**
(Deccan Plateau)

Uses: Architectural Landmarks, restoration, garden features, structural pillars.
Note: Ancient volcanic stone shaped into columns; revered in Indian heritage—ideal for structures with enduring presence.

HARRAT KHAYBAR BASALT

Type of Material Color
Basalt **Dark Grey**

Origin Market
Saudi Arabia **GCC**
(Median Province)

Uses: Desert landscaping, mosque architecture, thermal mass walls, urban paving, cultural monuments.
Note: Volcanic basalt sourced from Saudi Arabia; ideal for sustainable heritage builds. Naturally reflects heat.

GREY BASALT

(Chinese Grey Basalt or G654 Basalt)

Type of Material Color
Basalt **Medium Grey**

Origin Market
China **Global**
(Fujian Province)

Uses: Paving, walls, countertops, urban landscaping, architectural accents.
Note: Economical grey basalt with uniform tone; perfect for commercial applications. Durable and easy to maintain.

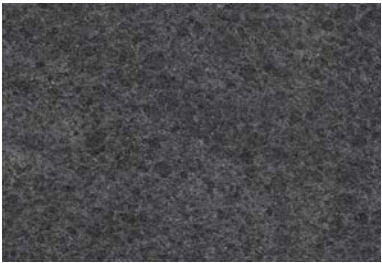

GREY BASALT

(Local Name: Anatolian Grey Basalt)

Type of Material Color
Basalt **Blue Grey**

Origin Market
Turkiye **Global**
(Eastern Anatolia)

Uses: Urban paving, architectural cladding, bridge construction, landscape design, historical restoration.
Note: Premium grey basalt with enhanced frost resistance; ideal for harsh climates and long-term resilience.

BLACK BASALT

(G684 Basalt)

Type of Material Color
Basalt **Black**

Origin Market
China **Global**
(Fujian Province)

Uses: Paving, walls, countertops, urban landscaping, architectural accents.
Note: Jet-black basalt with sleek uniformity; perfect for contemporary builds and bustling public zones—durable, bold, and impressively consistent.

QUARTZITE

The Resilient Beauty

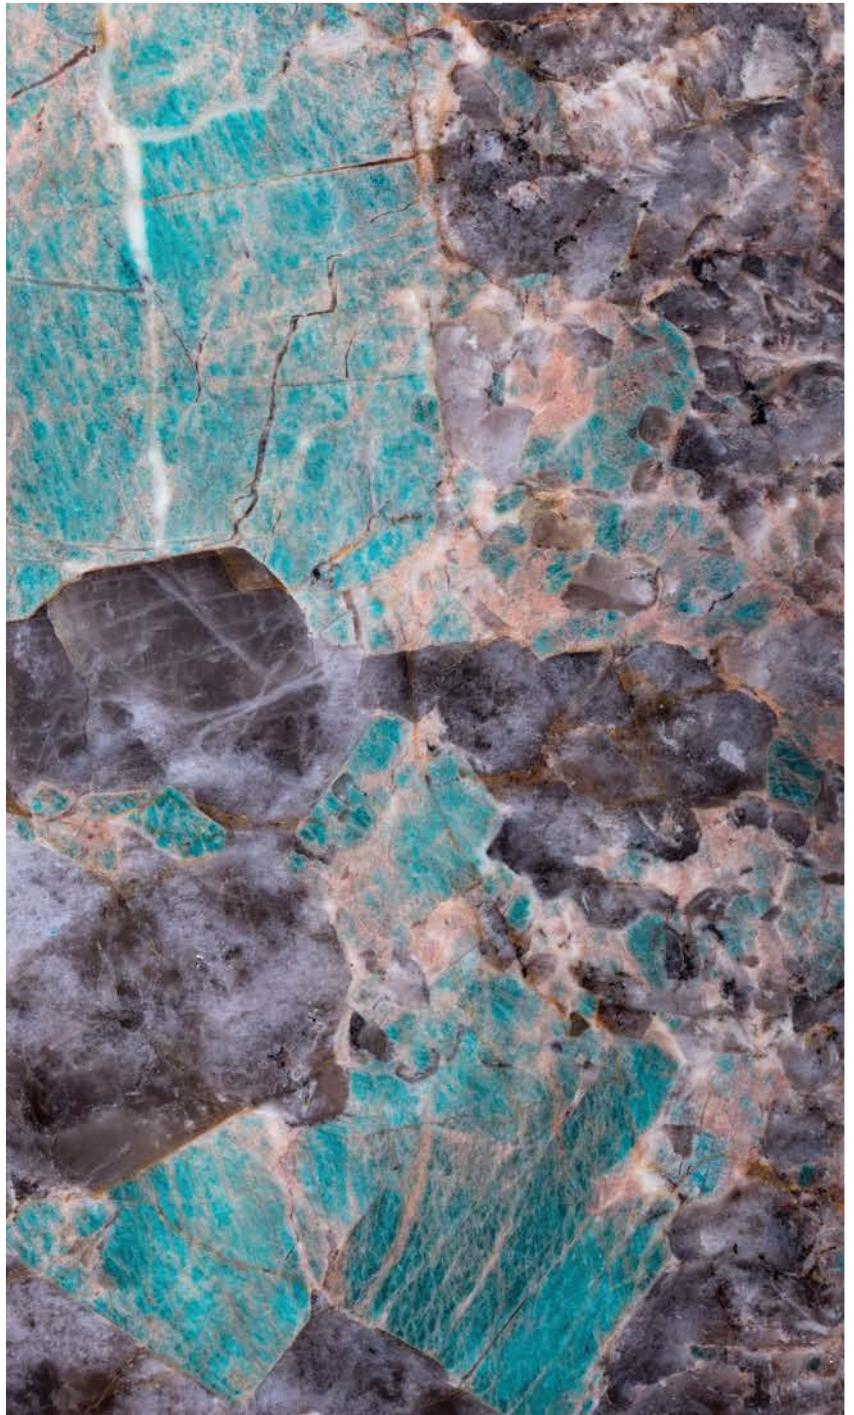

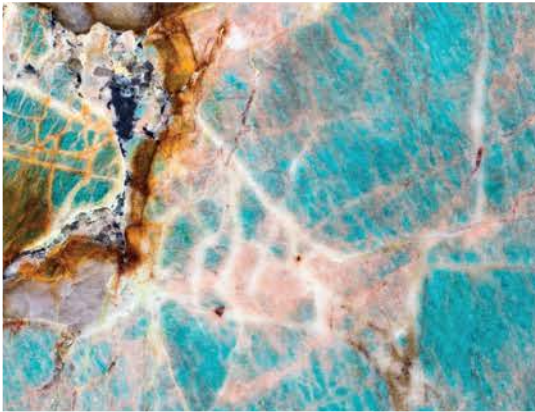

7

Quartzite is a marvel of metamorphosis, a stone that begins as humble sandstone and, under immense heat and pressure, transforms into one of the hardest and most radiant natural surfaces. With its shimmering crystalline structure and intricate veining, quartzite strikes a rare balance between delicate beauty and unrivaled strength.

Its palette ranges from soft whites and greys to vibrant blues, greens, and rose hues, often rivaling the elegance of marble while outperforming granite in durability. Each slab is a one of a kind canvas, with flowing patterns and translucent qualities that catch the light and captivate the eye.

Renowned for its hardness and resistance to heat, scratching, and etching, quartzite is a natural choice for high-performance countertops, feature walls, and sophisticated flooring. It endures the demands of modern living while maintaining an air of refined luxury.

A geological triumph, quartzite is where elegance meets endurance, crafted by nature to inspire awe and built to last a lifetime.

WHITE MACAUBAS

Type of Material Color
Quartzite **White**

Origin Market
Brazil **Niche Global**
(Bahia State)

Uses: Luxury countertops, feature walls, vanities, floors, high-end furniture.
Note: Premium white quartzite with striking grey veining; perfect for interiors. Elegance with enhanced durability.

CALACATTA GOLD QUARTZITE

Type of Material Color
Quartzite **Glacial White**

Origin Market
Brazil **Niche Global**
(Minas Gerais Region)

Uses: Luxury countertops, statement walls, vanities, flooring, reception desks.
Note: Ultra-exclusive quartzite with Calacatta-style gold veining; benchmark for elegance and strength.

TAJ MAHAL QUARTZITE

Type of Material Color
Quartzite **Soft White**

Origin Market
Brazil **Niche Global**
(Minas Gerais Region)

Uses: Luxury countertops, vanities, feature walls, upscale flooring, reception areas.
Note: Quartzite with soft white and gold hues; delivers marble-like sophistication with long-lasting strength.

BLUE LOUISE QUARTZITE

Type of Material Color
Quartzite **Blue**

Origin Market
Brazil **Global**
(Bahia State)

Uses: Luxury countertops, statement walls, vanities, upscale flooring, reception desks.
Note: Rare blue quartzite with dynamic veining and vivid color depth; perfect for bold contemporary spaces.

FUSION QUARTZITE

Type of Material Color
Quartzite **White & Grey**

Origin Market
India **Global**
(Rajasthan Region)

Uses: Luxury countertops, feature walls, vanities, floors, reception desks.
Note: Indian quartzite with a blend of gold, white, and gray; combines marble-like elegance with granite-level toughness.

SILVER MOON QUARTZITE

Type of Material Color
Quartzite **Silver Grey**

Origin Market
Brazil **Global**
(Minas Gerais Region)

Uses: Luxury countertops, feature walls, vanities, flooring, reception desks.
Note: Brazilian quartzite with ethereal silver-grey veining over a crisp white base; delivers marble-inspired beauty.

ONYX

Sculpted Light

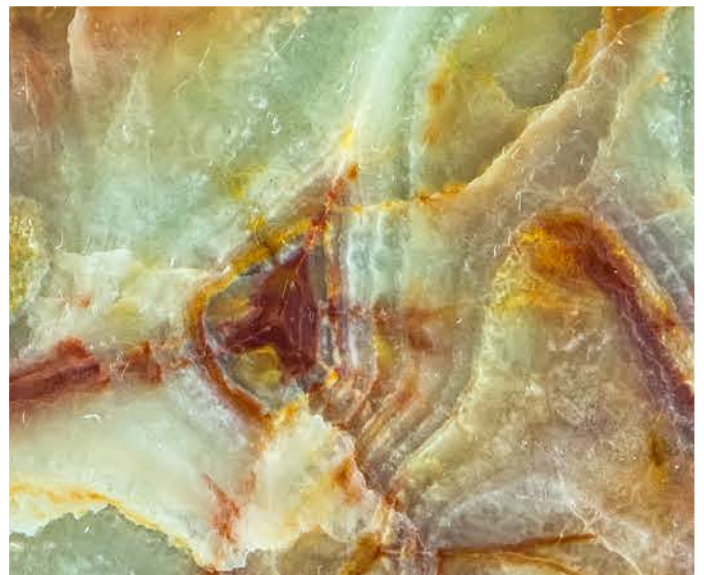

8

Onyx is the stone of light and allure, a translucent masterpiece born from layered mineral deposits, prized for its ethereal beauty and otherworldly glow. With patterns that ripple like flowing water and colors that range from soft pastels to bold golds, greens, and fiery reds, onyx captivates as both a material and a muse.

What sets onyx apart is its luminous character. When backlit, it transforms into a glowing canvas of depth and radiance, making it a favorite for feature walls, bars, and statement pieces where drama and elegance converge. Each slab is a living artwork, delicate, unique, and undeniably luxurious.

Though softer and more sensitive than other stones, onyx rewards careful handling with an unrivaled visual impact. It's not simply used, it is showcased, celebrated, and admired for its ability to elevate a space into an experience.

A true gemstone among stones, onyx is where nature's artistry meets opulence, bold, rare, and irresistibly radiant.

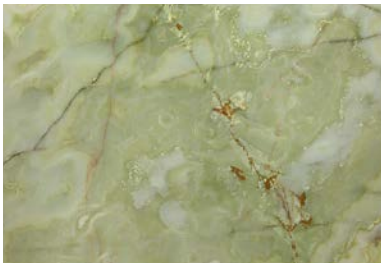

WHITE ONYX

(Local Name: Persian White Onyx)

Type of Material	Color
Onyx	White

Origin	Market
Iran	Global
(Kerman & Yazd Provinces)	

Uses: Luxury backlit bars, translucent walls, spa features, retail displays.
Note: Premium translucent onyx with a luminous glow; perfect for dramatic lighting effects. Requires expert installation.

GREEN ONYX

(Local Name: Persian Emerald Onyx)

Type of Material	Color
Onyx	Green

Origin	Market
Iran	Global
(Kerman & Yazd Provinces)	

Uses: Luxury backlit bars, translucent walls, spa features, retail displays.
Note: Ultra-premium green onyx with a captivating glow; rich environments. Requires specialized installation.

GOLD ONYX

(Local Name: Persian Gold Onyx)

Type of Material	Color
Onyx	Gold

Origin	Market
Iran	Global
(Kerman & Yazd Provinces)	

Uses: Backlit bars, translucent walls, hotel lobbies, retail displays, decorative features.
Note: Golden onyx with warm glow; perfect for opulent lighting.

RED ONYX

(Local Name: Persian Ruby Onyx)

Type of Material	Color
Onyx	Red

Origin	Market
Iran	Global
(Kerman Province)	

Uses: Backlit features, high-end bars, translucent partitions, walls, VIP retail.
Note: Rare blood-red onyx with a dramatic glow; perfect for bold lighting statements. Expert handling recommended.

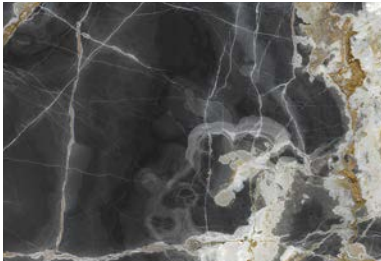

BLUE ONYX

(Local Name: Ónix Azul Patagónico)

Type of Material	Color
Onyx	Blue

Origin	Market
Argentina	Global
(Neuquén Province)	

Uses: Luxury backlit features, translucent bars, spa walls, artistic installations.
Note: Rare sky-blue onyx with ethereal glow; perfect for avant-garde design—specialized fabrication required.

BLACK ONYX

(Local Name: Ónix Negro Mexicano)

Type of Material	Color
Onyx	Black

Origin	Market
Mexico	Global
(Puebla & Oaxaca)	

Uses: Backlit bars, dramatic walls, premium countertops, sculptural accents.
Note: Black translucent with bold veining; ideal for moody, refined interiors. Expert lighting and fabrication reveal its depth.

SANDSTONE

The Original Earthborn Stone

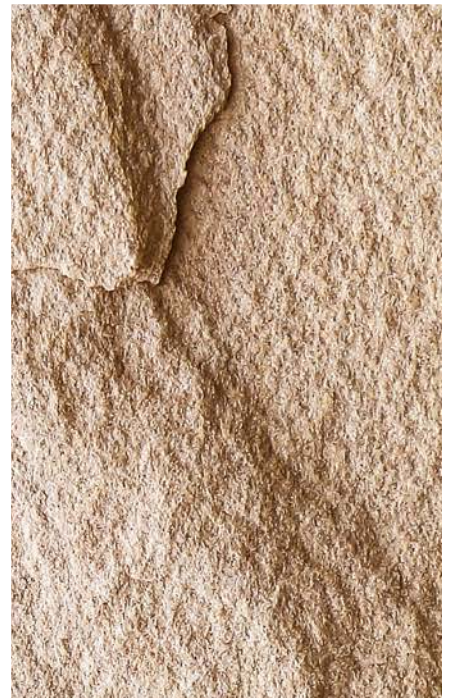

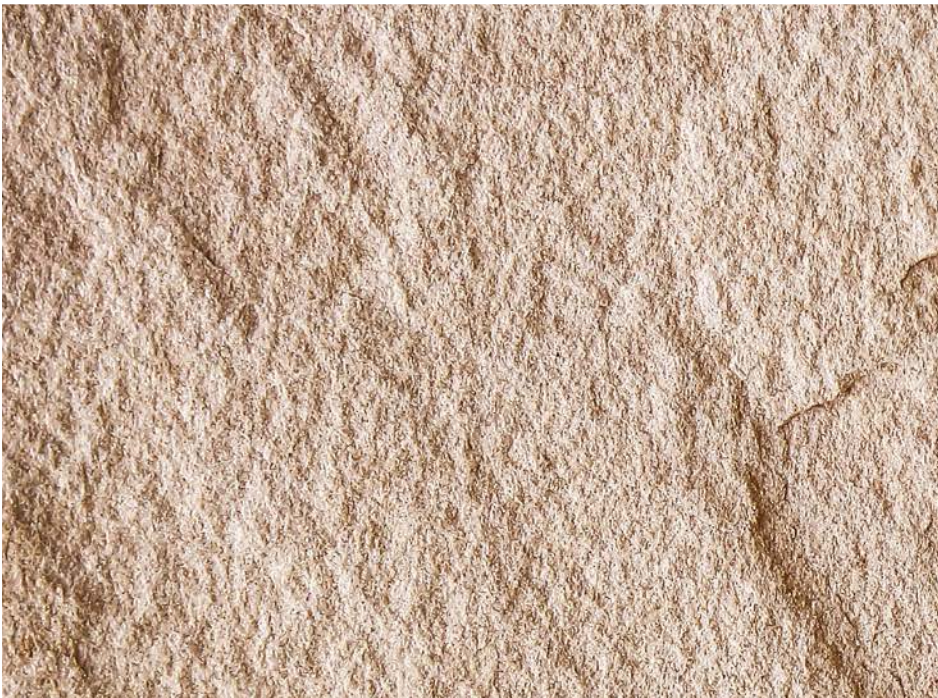

9

Sandstone is the language of landscapes, formed by wind, water, and time into a stone that feels both ancient and inviting. With its soft textures and sun-washed tones, sandstone evokes the warmth of deserts, cliffs, and canyons, carrying the spirit of the earth in every grain.

Its natural hues, ranging from creamy beiges and golden browns to rich rusts and earthy reds, create a palette of quiet harmony that complements both natural surroundings and architectural forms. Gentle stratifications and rippling patterns bring organic movement to surfaces, echoing the forces that shaped it over millennia.

Favored for its slip resistance and weathered beauty, sandstone is ideal for outdoor pathways, patios, and facades, yet equally graceful in interior spaces that seek a grounded, rustic charm. It's a stone that invites connection, with the land, with time, with texture.

A tribute to the sculpting hand of nature, sandstone is where earthy character meets enduring beauty, unpretentious, tactile, and timeless.

RAJ GREEN STONE

(Local Name: Raja Green Patthar)

Type of Material Color
Sandstone **Green**

Origin Market
India **Global**
(Rajasthan Region)

Uses: Flooring, wall cladding, paving, garden features.
Note: Premium olive-green sandstone with built-in weathering charm; ideal for heritage and landscape designs.

AUTUMN BROWN STONE

(Local Name: Shyam Golden Sandstone)

Type of Material Color
Sandstone **Brown**

Origin Market
India **Global**
(Rajasthan Region)

Uses: Flooring, wall cladding, paving, garden paths, traditional facades.
Note: Golden-brown sandstone with weathered charm; perfect for rustic and heritage-style builds.

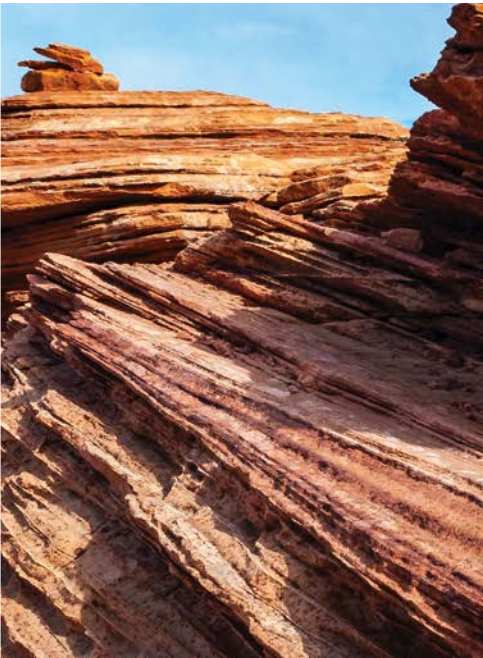

KANDLA GREY STONE

(Local Name: Kandla Grey Patthar)

Type of Material Color
Sandstone **Grey**

Origin Market
India **Global**
(Kandla Port region)

Uses: Flooring, walls, paving, pool decks, contemporary landscaping.
Note: Versatile grey sandstone with cooling qualities; ideal for tropical and modern outdoor spaces.

MODAK STONE

(Local Name: Modak Cream Sandstone)

Type of Material Color
Sandstone **Golden Cream**

Origin Market
India **Global**
(Rajasthan Region)

Uses: Flooring, wall cladding, outdoor paving, temple architecture, heritage restoration.
Note: Iconic golden-cream sandstone with historic roots; blending tradition with timeless elegance.

RAINBOW SANDSTONE

(Local Name: Indradhanush Patthar)

Type of Material Color
Sandstone **Multicolored**

Origin Market
India **Global**
(Rajasthan Region)

Uses: Feature walls, artistic cladding, luxury flooring, landscape design, statement pieces.
Note: Rare multicolored sandstone with vivid striations; perfect for bold designs and upscale interiors.

BLUESTONE

(Local Name: Chinese Bluestone)

Type of Material Color
Sandstone **Blue**

Origin Market
China **Global**
(Fujian & Jiangxi Provinces)

Uses: Paving, courtyards, pool decks, urban landscaping, traditional architecture.
Note: Dense blue-grey sandstone with high weathering resistance; built for heavy-use outdoor spaces.

LANDSCAPE STONE

Nature's Foundation

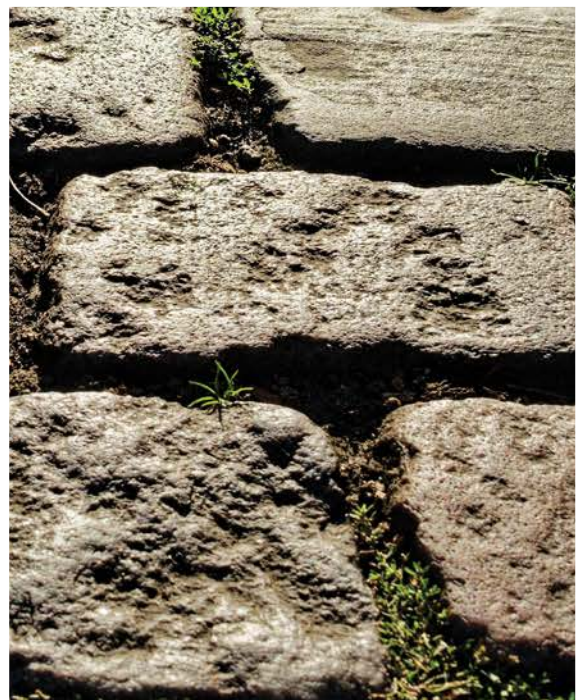

10

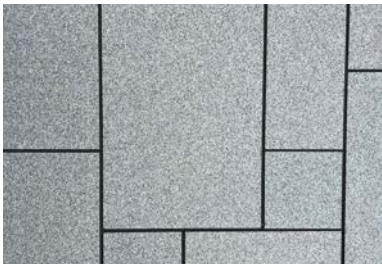

Landscape stone is the architect's brushstroke upon the natural world, a medium through which outdoor spaces are shaped, defined, and elevated. Drawn from the earth's most enduring materials, these stones bring structure, texture, and soul to gardens, terraces, and open air environments.

From the rugged beauty of split-face granite and the organic charm of weathered limestone to the understated elegance of slate or sandstone pavers, each stone tells a story of place and purpose. Their natural variations, color, form, and finish, create an authentic dialogue between built elements and the surrounding landscape.

Whether forming dry-stacked walls, flowing pathways, tranquil water features, or grand entrances, landscape stone offers more than durability, it offers presence. It anchors design in a sense of permanence, bridging the gap between raw nature and refined space.

Rooted in geology and guided by artistry, landscape stone is where design meets the outdoors, lasting, elemental, and beautifully alive.

GRANITE

(The Unyielding Foundation of Nature)

Durability: 6-7 Mohs hardness (resists scratches from foot traffic/furniture).

Weather Resistance: Near-zero porosity (<0.5%) – immune to freeze-thaw damage.

Heat Tolerance: Stays structurally stable up to 1,200°C (ideal for Warm climates).

Best Applications: Heavy-traffic pavers & Coastal barriers.

Finish Recommendations: Flamed or Honed.

BASALT

(Volcanic Strength, Timeless Elegance)

Natural Grip: Porous texture = slip-resistant even when wet.

Heat Deflection: Dark color absorbs heat but won't crack.

Load-Bearing: Compressive strength 100-300 MPa.

Best Applications: Urban hardscaping & Statement boulders.

Finish Recommendations: Bush-hammered or Polished.

LIMESTONE

(Echoes of Ancient Seabeds)

Aesthetic Versatility: Fossil patterns add heritage charm.

Workability: Softer than granite – easier to cut into custom shapes.

Caveats: Requires sealing (water absorption 2-10%). Avoid acidic environments.

Best Applications: Covered patios/pool copings. Historic restorations.

Top Varieties: Kota Blue & Jerusalem Gold.

SANDSTONE

(Nature's Non-Slip Masterpiece)

Traction: Naturally textured surface – no added anti-slip treatments needed.

Thermal Properties: Stays cool underfoot.

Climate Notes: Low-iron types (e.g., Kandla Grey) resist rust stains in humid coasts.

Best Applications: Resort walkways & Garden walls.

Finish Recommendations: Natural cleft or Sandblasted.

TRAVERTINE

(The Stone of Roman Legacy)

Thermal Resistance: Doesn't overheat like dark stones.

Hole Patterns: Unique pitting adds character (can be filled/unfilled).

Caveats: Avoid freeze-thaw cycles (can spall over time).

Best Applications: Pool decks, Mediterranean-style courtyards.

Top Varieties: Classico (Turkey) – warm beige. Silver (Iran) – modern grey tones.

QUARTZITE

(Marble's Beauty, Granite's Brawn)

UV Resistance: Won't fade like some marbles.

Stain Immunity: Non-porous when properly sealed.

Key Fact: Often mislabeled as "marble" – verify with acid test (quartzite won't fizz).

Best Applications: Luxury villa entrances, High-end commercial facades.

Finish Recommendations: Leathered or Polished.

KEY PROJECTS

Signature Projects, Etched in Stone

11

LUSAIL PLAZA_4 TOWERS

Type of Supplied Material

Landscape & Hardscape Stones

Location

Lusail, Qatar

HERMAS DEVELOPMENT PROJECT

Type of Supplied Material

Marble, Basalt, Granite & Limestone

Location

Landscape & Hardscape Stones

Location

The Pearl, Qatar

Where vision meets craftsmanship, our key projects showcase the timeless power of natural stone in shaping iconic spaces worldwide. From grand cultural landmarks and luxury hotels to serene private gardens, each creation is a fusion of beauty, purpose, and place.

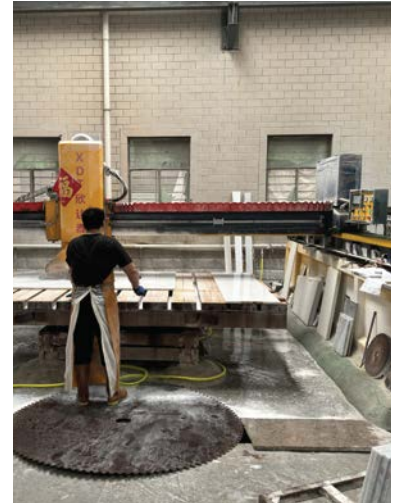

Every slab, paver, and cladding is chosen with intention, marble lending elegance to lobbies, granite grounding public plazas, limestone warming intimate landscapes. Here, stone is more than material; it is a storyteller, shaping identity and legacy with every detail.

These projects stand as living proof that natural stone is not just built into spaces, it defines them.

GLOBAL PRESENCE

Trusted Partners Across Continents

12

Global presence is not just about distance, it's about influence.

Across continents and cultures, natural stone speaks a universal language, shaping iconic spaces from the boutiques of Europe to the resorts of Asia, the facades of North America to the landscapes of the Middle East.

Every project reflects trusted partnerships, expert craftsmanship, and a deep respect for nature's finest materials. With access to the rarest quarries and the know-how to deliver anywhere, we turn design visions into realities.

Our reputation is built stone by stone, project by project, across generations and geographies.

ORDER POLICY

Standards for Seamless Ordering

PRICE ESTIMATION

Due to the nature of natural stone sourcing, where pricing fluctuates based on block availability, quarry conditions, and global logistics, we provide tailored quotes for all orders. Prices are calculated based on material type (e.g., marble, granite, limestone), grade (premium vs. commercial), order volume (full-container loads vs. partial shipments), and delivery location (international shipping, port fees, and inland transportation costs). Customers are encouraged to submit project details (stone type, dimensions, finish, and delivery address) to naturalstone@skalasolutions.com for a formal quote.

ORDER CONFIRMATION

Requested materials are tentatively reserved upon quote issuance but remain subject to prior sale or quarry availability until deposit receipt. Orders are confirmed only upon signed quote approval via email and payment of the non-refundable deposit (typically 30–50%, as specified in the quote).

PRICING VARIABILITY

Prices are guaranteed for 7–14 days (as stated in the quote), as natural stone markets are volatile due to quarry shortages, seasonal closures, freight cost fluctuations (fuel surcharges, container availability), and currency exchange rates (for international transactions). We reserve the right to revise quotes if material costs or logistics fees change before deposit receipt.

PAYMENT TERMS

A deposit is required to secure inventory and initiate production (cutting, finishing, or bundling). The balance is due before shipment. Accepted payment methods will be mutually agreed upon after quote approval and may include bank transfer (preferred), Letter of Credit (LC) issuance, or other secure payment options. Late payments incur 1.5% monthly interest.

DELIVERY & SHIPPING

Lead times vary by material origin and customization: stock items typically ship in 3–4 weeks, while custom orders (e.g., special finishes) may take 6–8 weeks. Shipping terms are available as FOB (Free On Board at origin port), CIF (Cost, Insurance and Freight to destination port), or DAP (Delivered At Place to jobsite), as specified in the quote. Delays due to weather, strikes, or customs are beyond our liability.

CANCELLATION & MODIFICATIONS

Natural stone is cut to order; no cancellations or alterations are permitted after deposit payment. Exceptions are reviewed case by case (e.g., force majeure quarry closures).

LEGAL & COMPLIANCE

While we inspect all shipments, natural stone may exhibit inherent variations (veining, fissures) per industry standards. Disputes are governed by UAE Commercial Law (or your local jurisdiction, if specified).
